In Person: Assets

KASSETS Assets Module

OVERVIEW

The 2010 asset section largely builds on the 2004 asset module. One major change is that in this round of interviews asset values were collected together with the corresponding income. Thus, the distinction between the asset and income sections in 2010 is not as clear cut as in previous waves of the WLS. For example, rental and interest income information was collected here, while the account balance of retirement plans was asked in the income and pensions section. Questions about the impact of the financial crisis of 2008 on asset values constitute the second major addition to the section. They were asked for several asset categories of a 50% random subsample. Also new in this round are questions on credit card use and credit card debt.

The section begins with questions on the value of real estate, businesses and vehicles, the associated mortgages or loans and the rental income from these properties. This is followed by questions on credit cards and other debts.

Next come financial investments, split in four categories: checking/savings/money market funds, CD's/government savings bonds/treasury bills, stocks/bonds/mutual funds, and other assets.

Life insurance policy questions including face/cash value questions proceeded questions about other assets. While in 2004 only respondents in the nonnormative parenting sample were asked to name life insurance beneficiaries, in this round this information was collected from all participants.

Unfolding brackets followed questions asking for dollar amounts in this section. Associated with these items are four variables (identified by the eight characters of the variable name) detailing the collected information in the bracketing sequence. The character "b" is associated with a summary variable, "u" and "l" denote the upper and lower bounds and "e" indicates the entry point into the bracketing sequence. Upper bound of infinity is denoted by a special missing code - ".i" in Stata, "I" in SAS and system missing in ASCII datasets.

Data for the 2011 collection wave were primarily compiled from in-person (CAPI) and - more rarely - telephone (CATI) interviews, as well as from self-administered questionnaires that participants were asked to complete and mail back after being interviewed. Sometimes participants who were unwilling to be interviewed in-person or by telephone indicated they would be willing to return a self-administered questionnaire (SAQ). Thus we created a special version of the SAQ and mailed it to participants who did not complete an in-person or telephone interview: the "mail-only self-administered questionnaire" (MOSAQ). In addition to replicating all content in the original 2011 SAQ, the MOSAQ also contained questions analogous to those asked in selected CAPI modules: Marriage, Cohab, and Dating; Children; Health; Employment; Income and Pensions; and Assets. Since MOSAQ data contributed to THIS module, users should pay special attention to analysis variable values of -29 and -30. Values of -29 (left blank on MOSAQ) mean that the information contained within a CAPI variable was asked of but not answered by a MOSAQ participant while values of -30 (not part of MOSAQ) mean that comparable information was not asked of MOSAQ cases.

During the interview, interviewers had a chance to leave notes with additional information obtained from the respondents. The WLS staff reviewed and processed these notes using a standardized set of decision rules for each section.In many cases processing the notes resulted in changes to the coded responses which created inconsistencies in the skip pattern of the CASES instrument. While we put considerable effort into adjusting such discrepancies, we could not eliminate them all. Occasionally, notes indicated problematic cases due to the lack of specific information or, conversely, cases that contained extra information that was important enough to retain. In such instances we created a flag, identified by the character "f" and attached it to the variable name, for the affected variable.

BRIEF VARIABLE DESCRIPTION

KASSSTAT-KASSREL:	Module-level status variables
KR021RP-KR035RP:	Real Estate and Vehicles - Value and Corresponding Loans
KR040RP-KR037RP:	Credit Cards and Other Debt
KR062RP-KR069RP:	Financial Assets - Bank Accounts, Investments, Etc.
KR080RE-KR085SP:	Respondent’s and Spouse’s Life Insurance
KR2* series:	Income from Owned Assets
KR3* series:	Impact of Financial Crisis of 2008
KR100RPC-KR101RPC:	Net Worth

kassstat: Was the Assets Module completed by respondent alone, with help, or by proxy?

Data source: Sibling Participant or Proxy Collected in: 2011 Mode: In person & telephone
Source variables: y_assproxy1, y_asshelp0, capiproxy, y_proxy, and y_ivwloc

		Frequencies		
Value	**Label**	**Male**	**Female**	**Total**
.	System missing - NR	2736	2510	5246
-30	NOT PART OF MOSAQ	73	63	136
-5	PARTIAL INTERVIEW	2	1	3
1	R COMPLETED ALONE	1346	1590	2936
2	R COMPLETED ALONE WITH SOMEONE ELSE IN THE ROOM	89	55	144
3	R RECEIVED A LITTLE HELP	115	58	173
4	R RECEIVED A LOT OF HELP	63	42	105
5	HELPER RESPONDED TO ALL ITEMS	6	7	13
6	MODULE PROXY	0	3	3
7	WHOLE INTERVIEW DONE BY PROXY	7	12	19

Note: For many cases a participant's spouse or other family member was present during the interview. This sometimes resulted in the participant relying on the other person for help in answering some or many of the questions. At the end of each module the interviewer indicated the amount of help the participant received and who provided that help. That assessment is covered by codes 1 through 5. Additionally, a code of 7 indicates that the entire interview was administered to a proxy while a code of 6 indicates that this particular module was answered by a proxy but other modules were answered by the participant.

kassrel: Relationship of Assets Module helper or proxy to Participant?

Data source: Sibling Participant or Proxy Collected in: 2011 Mode: In person & telephone
Source variables: kassstat, y_assproxy1, y_asshelp0, y_asshelp1, y_asshelp2_hfn, y_asshelp3, y_h1fn to y_h4fn, y_pfn, prxyfnam, y_p1fn to y_p5fn, y_prel, prxyrel, and y_p1rel to y_p5rel

		Frequencies		
Value	**Label**	**Male**	**Female**	**Total**
.	System missing - NR	2736	2510	5246
-30	NOT PART OF MOSAQ	73	63	136
-5	PARTIAL INTERVIEW	2	1	3
-4	NOT ASCERTAINED	1	4	5
-2	Inappropriate INAPPLICABLE, R COMPLETED ALONE OR REFUSED (kassstat=1,2,-3)	1435	1645	3080
0	SPOUSE	179	95	274
2	BROTHER	0	3	3
8	DAUGHTER	1	9	10
10	DAUGHTER-IN-LAW	0	1	1
25	FRIEND	1	0	1
26	GRANDDAUGHTER	0	1	1
41	ROMANTIC PARTNER	4	3	7
43	SISTER	0	2	2
45	SISTER-IN-LAW	0	1	1
48	SON	5	2	7
54	OTHER	0	1	1

Note: If this module was administered via proxy or if the participant received help answering the questions in this module then the interviewer recorded the relationship of the proxy/helper to the participant. Although most participants relied on only one helper or proxy for the interview, some had more than one. Thus the value of the relationship code may vary across the modules.

kr021rp: How much do you think your home would sell for now?

Data source: Sibling Participant or Proxy Collected in: 2011 Mode: In person & telephone
Source variables: y_p814s, y_p814m

		Frequencies		
Value	**Label**	**Male**	**Female**	**Total**
