Mail: Fishing and Seafood Consumption

Sibling Mail: Fishing and Seafood Consumption Module

OVERVIEW

The 2011 round of WLS data collection is the first to include items ascertaining behaviors related to fishing and seafood consumption. The mail questionnaire focuses on whether anyone in the participant's household has a valid fishing license, whether the participant has heard of limiting seafood consumption due to mercury contamination, if and how often the participant eats various types of fish or seafood or their reasons for not doing so.
