Mail: Social and Civic Participation

Sibling Mail: Social and Civic Participation Module

OVERVIEW

The Social and Civic Participation Module was initially introduced in the 1993 mail survey and replicated during the 2005 round of data collection. The 2011 edition, although similar to the 2005 questionnaire in many respects, includes some new questions while excluding others. Items about the participant's efforts to help a political party or candidate win the 2008 Presidential election, pet ownership, high school class rank, and cell phone usage have been added while items about using e-mail and the World Wide Web have been moved to the Internet Module of the mail survey. With the exception of these changes, the 2011 questionnaire closely parallels its 2005 predecessor.

For information about the participant's usage of e-mail and the World Wide Web, see the mail administered Internet Module.
