Mail: Health Services

Sibling Mail: Health Services Module

OVERVIEW

The Health Services Module, although newly introduced to the 2011 mail survey, is partially composed of survey items drawn from the Health Behaviors section of the 2005 questionnaire. Items inquiring about the participant's perceptions and expectations of their doctor(s), their feelings about medical care choices and costs, the reasons they experienced any difficulties or delays in obtaining healthcare in the past 12 months, and their perceptions of their overall healthcare coverage and situation have been repeated from the 2005 round of data collection. In addition to these, new items focusing on the participant's awareness of their personal health and healthcare requirements, the extent to which their health is entrusted to a single doctor, emergency room visits in the past 12 months, the conscientiousness and consistency of the participant's usual place of care, the perceived level of rapport they share with their doctor, and the extent to which they are preoccupied with or pessimistic about their personal health have been added.

For detailed attributes of the place where the participant usually goes to receive healthcare and an account of their experiences as a patient there, see also the CAPI administered 2011 Access to Health Care & Utilization Module.

BRIEF VARIABLE DESCRIPTIONS

Variable ranges reference dataset/codebook order and are not necessarily alphabetical.

PXHA50RE-PXHA58RE:	Participant's Perceptions and Expectations of Their Doctor(s)
PXHA13RE-PXHA15RE:	Feelings About Medical Care Choices and Costs, Visiting Unfamiliar Doctors, and Staying Healthy
PXHI25RE-PXHI35RE:	Specific Reasons Participant Experienced Difficulties or Delays in Obtaining Healthcare in the Past 12 Months
PXHA16RE-PXHA31RE:	Perceptions of Overall Healthcare Coverage and Situation
PXHA60RE-PXHA72RE:	Attitude Towards and Awareness of Personal Health and Healthcare Requirements
PXHA73RE-PXHA77RE:	Extent to Which Participant's Health and Healthcare is Entrusted to a Single Doctor
PXHA78RE-PXHA82RE:	Emergency Room Visits for Medical Treatment in the Past 12 Months
PXHA83RE-PXHA85RE:	Conscientiousness and Consistency of the Participant's Usual Place of Care

```
PXHA86RE:                    Perceived Level of Rapport With Doctor

PXHA87RE-PXHA93RE:           Participant's Preoccupation With and
                             Pessimism About Their Personal Health
```

pxha50re: To what extent do you agree that, all in all, you have complete trust in your doctor?

2	NO	251	209	460

Note: This variable references a reason for experiencing difficulty or delay in obtaining or not receiving healthcare other than those covered by variables PXHI25RE, PXHI26RE, PXHI27RE, PXHI28RE, PXHI29RE, PXHI30RE, PXHI31RE, PXHI32RE, PXHI33RE, and PXHI34RE above. In other words, it references a reason other than the following: couldn't afford medical care; insurance company wouldn't approve, cover or pay for care; insurance company required a referral but couldn't get one; doctor refused to accept insurance plan; medical care was too far away; it was too expensive to get there; couldn't get there when the doctor's office was open; didn't know where to go to get care; it took too long to get an appointment; couldn't get through on the telephone to make an appointment.

pxha16re: Thinking about your own healthcare, how would you rate the convenience of the location of the doctor's office?
