

## Economic Imputations

### Imputation Data

#### OVERVIEW

The data contain imputed data values for missing data on economic variables. For graduates imputed values are available for the 1975, 1992, and 2004 waves of data. For siblings imputed data are available for the 1994 and 2005 wave.

For each variable, five separate imputations are available. The first 6-7 characters in the imputed variable names match the first 6-7 characters in the original analysis variables. The imputed variable names then add an additional two characters. The first is the letter "I" and the second is a digit between one and five indicating the imputation number.

For more information on how the imputations were created and how to use them data please see cor1014 in Appendix L.

Please also refer to the original analysis variables for additional notes and restrictions.

Note: In the public release, this variable is top-coded at \$710,000.

This variable is the sum of imputed respondent total personal income (GP250RECI1), imputed spousal income from various sources (GP202SPI1, GP204SPI1, GP208SPCI1, GP211SPI1, GP213SPI1, GP215RPI1, GP219RPI1, GP223RPI1), and non-imputed income from other household member(s) (GP225HH).

See GP250RECI1 for the components of imputed respondent total personal income.

Only positive income is included.

Half of GP215RPI1 is included if respondent was married at the time of interview; otherwise GP215RPI1 is not included.

Half of GP219RPI1 is included if the payment was received jointly (GP217RP=3); the full amount is included if the payment was received by spouse only (GP217RP=2).

Half of GP223RPI1 is included if the payment was received jointly (GP221RP=3); the full amount is included if the payment was received by spouse only (GP221RP=2).

Income from other household member(s) (GP225HH) was not imputed due to lack of sufficiently good covariates.

GP225HH is included so the imputed total household income is comparable to the non-imputed total household income (GP260HEC).

See CP250RECI2 for the components of imputed respondent total personal income.

Only positive income is included.

Half of CP215RPI2 is included if respondent was married at the time of interview; otherwise CP215RPI2 is not included.

Half of CP219RPI2 is included if the payment was received jointly (CP217RP=3); the full amount is included if the payment was received by spouse only (CP217RP=2).

Half of CP223RPI2 is included if the payment was received jointly (CP221RP=3); the full amount is included if the payment was received by spouse only (CP221RP=2).

Income from other household member(s) (CP225HH) was not imputed due to lack of sufficiently good covariates.

CP225HH is included so the imputed total household income is comparable to the non-imputed total household income (CP260HEC).
