

## Graduate Phone: Access to Health Care and Insurance

Graduate Instrument, Access module

### OVERVIEW

The telephone survey contains detailed questions to determine all GR's health insurance and associated costs. The Health Insurance Section gathers information about physician and hospital medical care insurance. The Utilization Section gathers information on usual source of care, usual provider, how long they have been able to go to this place/person, as well as details about doctor's specialties.

### BRIEF VARIABLE DESCRIPTIONS

Note: The first 6 variables existed in 1993. Universe for 1993 created summary variables is different for each. See the health insurance variables in the 1993 codebook for details. Universe for 2004 created summary variables is all respondents. Universe for other insurance variables (each plan loop) is respondents who answered that loop (had that type of insurance)
