Note: An error in the survey instrument caused question 647 to be skipped if the answer to question 643a (variable RQ004RP) was 2, 7 or 9. This error was corrected on 9/10/92. Cases which skipped question 647 are coded -4 for RQ006PB unless the response to question 646 is 1. In that case RQ006PB is coded 1. In some cases, this information was then reported beginning with question 652 about other people who gave respondent or spouse money. If parents were coded there, the data was "fixed" so that in this data file, it appears under the parent section rather than someone else.

Note: For each child to whom money was transferred, we know the birth order of the child (RQ027nn), whether or not the child is the selected child (RQ028nn), the sex of the child (RQ029nn), the amount of money transferred to the child (RQ030nn), why the child received money (RQ031nn) and the most recent year child received money (RQ032nn). There are 16 of each of these variables. RQ026KD indicates how many have valid entries;nn is the table number. Table entries are in descending order by amount child received. The same child may be listed for different reasons in the table.

The survey instrument allowed for transfers to children for each of these reasons: down payment on a home (3), enter or continue business or farm (3), increase wealth or decrease debt (3), medical expenses (4), housing or other living expenses (4), educational expenses (3), and other (4). The number in parenthesis indicates maximum number of transfers allowed for that reason. The total number of transfers in the actual data was 16.
