

Phone: Digit Ordering

SDIGIT - Sibling Module

For more information on this module, see Appendix G COR 946

OVERVIEW

The purpose of this task is to help provide a measure for the cognitive ability of the respondent. The instructions to the respondent are as follows:

"Now we are going to do a task that's quite a bit different. I'd like you to make sure that you're away from any noises or other distractions, and I'd like you to close your eyes for this part after I explain the instructions. This time I'm going to read some numbers to you, and when I am done I would like you to rearrange the numbers from the lowest number I say to the highest number I say and then say them back to me. For example, if I said "4 zero 2", you would say, "zero 2 4". I can only say the numbers once, so that's why it's important that you are able to hear me clearly. This is designed to be a little hard. We don't expect everyone to get everything right, but we really want you to try your best, OK? Is this clear? Okay, the first set of numbers is..."

The interviewer then reads a series of three one-digit numbers, which appear on the computer screen. The respondent attempts to say the numbers back in ascending order. If the respondent answers correctly, he or she continues on to the next level, which uses four numbers instead of three. If the respondent answers incorrectly, the interviewer reads another set of three numbers for the respondent's second attempt. If the respondent answers incorrectly on the second attempt, the module ends. This pattern continues until the respondent either fails at one level or completes the last level, which uses eight numbers.

BRIEF VARIABLE DESCRIPTIONS

ci501re	Indicates if Sib is in 80% digit ordering sample.
ci502re	Highest level Sib successfully completed.
ci503re	Alternative scoring method for digit ordering task.
ci504re	Additional information about low performance on digit-ordering task
ci531re	Tabulation of results: Level 3, Item 1.
ci532re	Tabulation of results: Level 3, Item 2.
ci535re	List of Sibs' answers: Level 3, Item 1.
ci536re	List of Sibs' answers: Level 3, Item 2.
