BICD10 ICD-10 Variables

For more information please see COR948 in Appendix R for details on the ICD-10 recodes of the ICD-9 codes.

OVERVIEW

There are 5 ICD-9 variables in the 2005 sibling spouse phone and mail interview. The variables in this module are simply a recode of these 5 ICD-9 variables. That is, a conversion mapping was applied to change the code to ICD-10. The sibling spouse's original response was not reviewed for the ICD-10 variable.

Please note that the original ICD-9 variables also include ICF codes and ICD-9 Volume 3 codes. There are no ICD-10 equivalent for these codes and thus are coded -2 (inappropriate). Also, there is no collapsed version of these private ICD-10 variables. Since the collapsed ICD-9 codes are public and the code scheme is somewhat arbitrary, there is no need for a collapsed ICD-10 variable.
