

**Questions on “The Immigration Equation,” by
R. Lowenstein , NYTimes Magazine, July 9 2006**

Note: It is ok to work on this assignment with someone else. However, each of you should write the answers on your own words and you need to write the name of the person that worked with you.

- (1) Summarize Borjas’s position and give a brief description of one of his papers/books .
What type of immigration policy would he recommend for the US now?
- (2) Summarize Card’s position and give a brief description of one of his papers.
What does he say regarding the comparison between the trade and immigration debates?
- (3) What does Lowenstein say about the differences between the previous immigration wave into the US (1880-1921) and the current one?
