

## Phone: Parents

GPAR Parent Module

### OVERVIEW

Information about the Graduate Respondent's parent(s) was collected in the following manner:

-Mortality status of the respondent's mother was requested. If the respondent's mother was deceased, information about the date, place and cause of death was ascertained. If the respondent's mother was living, information about her health, living situation, and frequency of contact with the respondent was ascertained. For a random 50 percent sample of respondents with living mothers, information about closeness and similarity in outlook was ascertained as well. If data on the respondent's mother's date of birth or name was missing from existing records, that information was ascertained as well regardless of the mortality status of the respondent's mother. All respondents were asked the nationality of their mother regardless of her mortality status.

-Mortality status of the respondent's father was requested. If the respondent's father was deceased, information about the date, place and cause of death was ascertained. If the respondent's father was living, information about his health, whether he was currently married to and living with the respondent's mother if both were reported as living, his living situation if the respondent's father was not currently living with the respondent's living mother, and frequency of contact with the respondent was ascertained. For a random 50 percent sample of respondents with living fathers, information about closeness and similarity in outlook was ascertained as well. If data on the respondent's father's date of birth, name, or nationality was missing from existing records, that information was ascertained as well regardless of the mortality status of the respondent's father.

-Comparison questions concerning work, finances, and family were asked of a random 50 percent of respondents whose same-sex parent lived to at least age 60. A random 10 percent of respondents whose same sex parent lived to at least age 60 were also asked to a comparison question concerning education.

-Mortality status of the respondent's father and mother-in-law were ascertained if the respondent was currently married according to information collected in the interview in the marriage module.

### BRIEF VARIABLE DESCRIPTIONS

GE048RE:	Graduate in closeness/comparsion sample?
GE050MA-GE061MAB:	Variables for Mother of Respondent: Year of Birth, Year of Death, Cause of Death, Nationality, Health, Residence, Contact with R, Similar Outlook to R, Closeness with R.
GE062FA-GE073FAB:	Variables for Father of Respondent: Year of Birth, Year of Death, Cause of Death, Nationality, Health, Residence, Contact with R, Similar Outlook to R, Closeness

with R.

GE074PAB-GE075PAC: Variables for Parents of Respondent: Married to Each Other, Same Residence.

GE076PAC-GE079PAD: Variables for Same Sex Parent of Respondent: Lived to Age 60, Similarity to R in Education, Similarity to R in Work, Similarity to R Financially.

GE080MI: Mortality Status of Mother-in-Law if the Respondent was Currently Married.

GE085FI: Mortality Status of Father-in-Law if the Respondent was Currently Married.

NOTE: For variable creation details see cor873 in Appendix D.

## ge048re: Is the Graduate in the 50% random parent's closeness/comparison sample?
