GVOL Volunteer Module

For more information on the Volunteer Module see Appendix G.

OVERVIEW

The Volunteer Module contains questions about graduate respondents' volunteer, blood donation, and caregiving activities.

- Questions about volunteer and blood donation activities are new to the 2004 telephone instrument. Only respondents in the 79% random sub-sample were asked the questions about volunteering and blood donation. Variable gu001re is a flag from the Alcohol Module which equals 1 if respondents were in the sub-sample and 0 if they were not.
- Questions about caregiving were introduced in 1993 and asked again in 2004. In 1993, questions about caregiving activities were contained in an independent Caregiving Module. Questions pertained to both care received by the respondent and care given by the respondent to a family member or friend. For the 2004 wave, respondents were only asked about care given to a family member or friend, and the questions are located within the Volunteer Module.

Although some caregiving questions appeared in both waves, many of the questions used in 1993 were not repeated in 2004. Only the following variables, listed here as 1993 variable name/2004 variable name, appeared in both waves: RV030RE/GV060RE and RV016RE-RV022RE/GV016RE-GV022RE. For both waves, only respondents in the 79% random sub-sample were asked the questions about caregiving. Variable GU001RE is a flag from the Alcohol Module which equals 1 if respondents were in the sub-sample and 0 if they were not.

BRIEF VARIABLE DESCRIPTIONS

Caregiving

GV001RES:	Ever Given Care for 1+Months to Family Member or Friend
GV060RE:	R's Relationship to Care Recipient
GV016RE:	In Last 12 Months, Given Care to Family Member or Friend
