Graduate Mail: Social Relationships Module

OVERVIEW

This module, although replicating some portions of the 2004 mail survey's Social Relationships section, features significant additions. Items focusing on whether or not the participant feels they have someone they can share their private feelings with, the types of help and support they have given and/or received from people other than a spouse in the past month, and perceptions of who - other than a spouse - they could ask for specified situational help have been retained from the 2004 survey. Complementing these emphases are items ascertaining the participant's use of personal vehicles and/or public transportation to get from place to place, their reliance on unpaid help from friends or family members - and corresponding concerns about burdening them - their worries about aging and old age, difficulties they encountered while caring for a person identified during the in-person CAPI interview's Care Giving Module, and their overall reactions to caring for that person.

See also the CAPI administered Care Giving Module. If the participant is currently providing unpaid personal care to anyone, they will be asked to focus on the person who requires the most care during the Social Relationships section of the mail survey. If they are not currently caring for anyone, but have done so on an unpaid basis in the past, they will be asked to focus on the person whom they've provided the most care for ever.

BRIEF VARIABLE DESCRIPTIONS

Variable ranges reference dataset/codebook order and are not necessarily alphabetical.

JV053RER-JV550RER:	Does Participant Have Someone to Share Their Private Feelings With?
JV301RER-JV306RER:	Availability and Use of A Personal Vehicle and/or Public Transportation
JV001RE-JV313RER:	Participant's Experiences Giving Specified Kinds of Help to People Other Than Spouse
JV025RE-JVI17RER:	Participant's Experiences Receiving Specified Kinds of Help from People Other Than Spouse
JV055RE-JVI21RER:	Participant's Perceptions of Who - Other Than Their Spouse - They Could Rely on for Specified Situational Help
JV440RER-JV9441RE:	Unpaid Help the Participant Receives With Any Facets of Their Day-to-Day Activities
JV441RER:	Participant's Relationship to the Person Who Provides the Type of Unpaid Help They Need Most

Wisconsin Longitudinal Study Codebook

JV442RER-JV444RER:	Participant's Concerns About Burdening the Person Who Provides Them With the Type of Unpaid Help They Need Most
JV445RER-JV448RER:	Participant's Worries About Needing Help from Others as They Grow Older
JV450RER-JV903RER:	Has a Person the Participant Provides/Provided Unpaid Care for Been Identified as the Subject of Further Surveying on the Difficulties/Benefits of Caregiving?
JV451RER-JV463RER:	Difficulties Participant Experienced While Providing Unpaid Care for Someone
JV464RER-JV472RER:	Benefits Participant Experienced While Providing Unpaid Care for Someone

Note: This variable stems from a check box on the mail survey prefaced by the following statements: "We are interested here in help that is not paid for. During the past month have you GIVEN the following kinds of help? Check the box for EVERYONE that you GAVE each kind of help TO (other than spouse)." Thus, to indicate that no one other than a spouse needed help in the past month, the participant would have had to check a box signifying "none of these people needed help". When using this variable, take heed: it is entirely plausible that a participant who checked the box it was based on also checked others for providing help (even though doing so is not entirely logical).

1	YES	263	113	376
2	NO	2042	2622	4664

Note: This variable stems from a check box on the mail survey prefaced by the following statements: "Now think about persons (other than a spouse) who you feel you COULD ask for help, IF YOU NEEDED IT. Check the box for EVERYONE that you COULD ASK FOR each kind of HELP FROM." Thus, to indicate that no one other than a spouse could provide help, the participant would have had to check a box signifying "no one". When using this variable, take heed: it is entirely plausible that a participant who checked the box it was based on also checked others (even though doing so is not entirely

logical).

Note: During the Caregiving Module of the CAPI interview, the participant was asked about people for whom they currently provide or previously provided unpaid care. If the participant reported providing unpaid care to someone at any point in time, a name was written into the instructions on pages 52 and 53 of the Social Relationships section of the mail survey (covered by variables JV451RER-JV472RER below). For participants who reported currently providing unpaid personal care to someone, the name of

the person who currently requires the most care was written in. For participants not currently caring for anyone, but who reported providing unpaid care in the past, the name of the person who required the most care ever was written in. If the participant did not report ever caring for anyone on an unpaid basis, pages 52 and 53 were crossed out and variables JV451RER-JV472RER have been assigned values of "-2" and coded as inappropriate. For more information about the recipient of the participant's care selected as the subject of further surveying in the mail questionnaire (if applicable), see variables JV901RER-JV903RER below.
