An overview of the respondent's Q file for questions regarding receiving income:

Respondent asked to report own income for wage, salary, and self-employment in a separate question for each type of income.

Respondent asked to report income of spouse for wage, salary and self-employment in separate questions for each type of income.

Respondent asked to report several other types of income (including interest, social security, pension, child support, inheritance, public assistance and any other). There were separate questions for each type of income and up to 3 questions for each type, thus allowing for 3 persons. The "persons" varied slightly by question. For interest & dividends; other government programs; and any other source, the "persons" could be: 1. respondent 2. husband or wife 3. joint; respondent and spouse 4. other person (name given). For all other questions the "person" could be: 1. respondent 2. husband or wife 3. other person (name given). Name was matched to household roster to obtain relationship to graduate.

Respondent asked to report wages, salary and/or self-employment income for anyone else in the household. Up to 5 other household members could be specified by name. These were matched with household roster to obtain relationship. Wage, salary, and self-employment were lumped together.
