SDEPR - Depression Module

OVERVIEW

Information about the Graduate-Sibling Respondent's depression experience was collected in the following manner:

- In 2004, life-time experiences of depression have been asked to Graduate-Sibling Respondents who were randomly selected to answer on alcohol consumption and depression experiences (ALCFLAG = 1).
- The 2004 Graduate, Graduate-Spouse, Graduate-Sibling share same depression module.
- These depression modules are replicates of 1992 Graduate depression module.
