NOTE: Variable names appearing in () after the descriptions were the sources used to construct the variable. @vname indicates that the source variable came from WLS23 (1957-77 data file).

The remaining vnames are the same as the original question numbers on the 1992/93 questionnaires. An "s" preceding the vname means the source was an open-ended response to the original question.

Note: The highest equivalent educational level reported for RB003RED may not use the latest degree obtained. Some respondents received "lower" degrees after their 1975 interview (for example, a respondent with a Bachelor's degree returned to school for an Associate's degree.)

Use RB004RED to get the equivalent educational level for the most recent degree obtained.

If there was no schooling for 1975 respondents after 1975, they received the same code they had in EDEQYR. If 1975 Rs had schooling after 1975 but did not earn a degree, they received either EDEQYR or 12+(# years college), whichever was higher.

Note: The highest degree reported for RB006REE may not be the latest degree obtained. Some respondents received "lower" degrees after their 1975 interview (for example, a respondent with a Bachelor's degree returned

to school for an Associate's degree.) Use RB008REC to get the most recent degree obtained.

Note: The most recent degree reported for RB008REC may not be the highest degree obtained. Some respondents received "lower" degrees after their 1975 interview (for example, a respondent with a Bachelor's degree returned to school for an Associate's degree.) Use RB006REE to get the highest degree obtained.

Note: Some of the cases in the RB009RED = 2 category may be cases of respondents who reported the same degree twice; i.e., a degree received before 1975 and reported in the 1975 interview was reported in the 1992 interview as being conferred after 1975. Compare 1975 variables EDDGNM, EDCLN2, CMEDDG, and EDDGM to 1992 variables RB008REC, RB018RED, RB020RED, and RB021RED to identify respondents who may have double-reported their degrees.

Note: Where data for the century-month completed bachelor's exists in both 1975 (CMDTBA) and 1992 (v7m), the 1992 data is reported.

All dates for education were asked by season and the mid-point of each season was selected for the data.

(Summer = July; Fall = Oct; Winter = Jan; Spring = April)

See Appendix O - COR607, Century Months.

Note: Date respondent FIRST attended college after receiving most recent degree is only available for those who received a degree and took post-degree courses after 1975. Please note that this is different from RB024REE and RB026REE, where information about post-degree college attendance is available if the respondent took ANY courses after 1975.

Starting dates were not obtained in 1975 for post-degree courses. Therefore, if a 1975 respondent did not receive a degree after 1975, we have no starting dates from the earlier data to use as a fill for this variable. Post degree college information were not obtained if attended for less than one year for 1975 non-respondents. All dates for education were asked by season and the mid-point of each season was selected for the data.

(Summer = July; Fall = Oct; Winter = Jan; Spring = April)

See Appendix O - COR607, Century Months.

**rb026ree: Century month last attended college or university after obtaining most recent degree. Only available for those who took post-degree courses since last wave of interview or who were nonrespondents.**

Therefore, if a 1975 respondent did not take any additional courses after 1975, we have no ending dates from the earlier data to use as a fill for this variable. Post degree college information was not obtained if attended for less than one year for 1975 non-respondents. All dates for education were asked by season and the mid-point of each season was selected for the data.
