Phone: Selected Child

During the 1975 interview one of the respondents children was randomly chosen as the "selected" child. We intended to ask about this same child if he/she were still alive during the 1992-1993 interview. However, due to an error in the first version of the survey instrument, the "selected" child was randomly chosen for groups 0 and 1 (GROUP91=0 or 1) for the nonsib sample (XSTAT77=99). Of course this randomly chosen child was sometimes the same child as the 1975 selected child and sometimes he/she was different. Variable RDB02SK indicates if a new child was selected and the reason for the new selection. Please note that RDB002SK contains the codes from RD002SK prior to 2004.

If the selected child was deceased, a new child was chosen in 1992. In order to avoid confusion, in 2004, we agreed to follow the same selected child.

In 2004, the data file was restructured so that data for all selected children who were newly chosen for any reason other than noninterview of R previously are no longer available in the master data set. Data for these selected child variables is available in a separate module – newchild92. 678 cases are in newchild92.

Variable RDB02SK is coded 4 (new child chosen due to death of 1975 selected child), 5 (new child due to error in instrument) or 7 (2 cases, random error) for cases whose data is only available in newchild92. Variables RD002SK-RD016SK of KROS and all the variables in SKID (RJ001SK-RJ051SK) have been moved to newchild92 for children newly selected in 92. Data in the master file for these variables is coded not ascertained (-4) for the 678 cases if there is no information available from the 1975 or 1993 interview.

Seven respondents refused to reveal any information regarding children. Thus we do not know whether or not they have any children. These cases are coded 9 or 99 or 999 as appropriate for all questions in this section.

rj001sk	Number of children selected child has.
rj002sk	State of selected child's residence.
rj003sk-rj004sk	Current college attendance of selected child.
rj005sk-rj010sk	Degree from college or university (selected child).
rj011sk-rj014sk	Past and future school attendance (selected child).
rj015sk-rj018sk	Respondent's preference, influence, and perceived influence regarding selected child's education.
rj019sk-rj020sk	Selected child's military service.
rj021sk-rj022sk	Child's current/past activity, employment.
rju23sk-rju24sk	1970 census occupation and industry for current/last job.
rju25sk-rju31sk	Class of worker, summary occupation and industry, status scores for current/last job.
rj032sk-rj038sk	1990 census occupation and industry for current/last job. Summary occupation and industry, status scores for current/last job.
rj040sk	Were questions RJ041SK-RJ051SK in the random sample?
rj041sk-rj042sk	Respondent's assistance to selected child with finding a job.
rj043sk-rj046sk	Respondent's frequency of contact with selected child.

```
rj047sk-rj048sk    Similarity and closeness between respondent and
                     selected child.
rj049sk-rj051sk    Comparison of education, work and finances between
                     respondent and child.
```

14	Handlers, Equipment Cleaners, Helpers/Laborers: Manufacturing	25	37	62
15	Handlers, Equipment Cleaners, Helpers/Laborers: All Other & N.A.	76	84	160
16	Farm Operators & Managers	14	21	35
17	Farm Workers & Related Occupations	67	76	143
18	Military Occupations	2	0	2

Note: The 1990 Major Occupation categories are selected to resemble the 1970 categories, but individual occupations which may have changed category between 1970 and 1990 (for example, Actors & Directors) keep their 1990 major industry designation. No attempt was made to reconcile these cases. The large number of such cases makes direct comparison between 1970 and 1990 Major Occupation categories unadvisable. For a list of all such individual changes, see Kubitschek 1986 (CDE Working Paper 86-6).
Note: See Appendix E - cor681 for detailed coding instructions.
Note: Consistent with 1990 Census procedures, civilian occupation codes were assigned to military personnel if they described civilian occupational activities. Therefore, it is possible to assign a code for those individuals on this variable.
Individuals in the military who only described military occupations were assigned the military occupation codes and coded military on this variable.

rj036sk: 1989 Nakao-Treas Prestige Rating for selected child's current/last job.

Data source: Graduate Respondent   Collected in: 1992-93   Mode: phone
Source variables: RJ033SK
Revisions: Added 9/99; Updated 2005

Value	Label	Frequencies		
		Male	**Female**	**Total**
.	System missing - NR	1011	813	1824

633 - 827		572	710	1282
828 - 999		550	706	1256

Note: See Change Notice #21 for information about 9/00 update.
Note: There is an implied decimal point one place to the left of
the right most digit.
Note: The 1990-basis occupational education score is the percentage of persons in the 1990
Census in an occupation/ industry/class-of-worker category who completed one year of college or
more. See Appendix E - COR 639 and COR 684 for details, and a recommended transformation of
this variable.
Note: Consistent with 1990 Census procedures, civilian occupation codes were assigned to
military personnel if they described civilian occupational activities. Therefore, it is
possible to assign a code for those individuals on this variable.
Individuals in the military who only described military occupations were assigned the military
occupation codes and coded inappropriate on this variable.

rj038sk: 1990 Occupational Earnings Score for selected child's current/last job.

Data source: Graduate Respondent   Collected in: 1992-93   Mode: phone
Source variables: RJ032SK, RJ033SK
Revisions: Added 9/99; Updated 12/99, 9/00, 2005

Value	Label	Frequencies
