September 19, 2017

Education

Ph.D., 1998, Kellogg Graduate School of Management, Northwestern University.
A.B., 1992, Dartmouth College. Summa cum laude.

Appointments

Richard E. Stockwell Professor of Economics, University of Wisconsin, 2016 to present.
Professor of Economics, University of Wisconsin, 2005–2016.
Associate Professor of Economics, University of Wisconsin, 2002–2005.
Assistant Professor of Economics, University of Wisconsin, 1998–2002.

Grants, Fellowships, and Awards

National Science Foundation Grant (“Best Experienced Payoff Dynamics and Cooperative Play in Extensive Form Games”), 2017-2020.
Army Research Office Grant (“Large Deviations in Multi-Agent Systems”), 2017-2020.
National Science Foundation Grant (“Equilibrium Breakdown and Equilibrium Selection in Evolutionary Game Theory”), 2015-2017.
Vilas Associate, University of Wisconsin, 2015-2017.
Epstein Faculty Fellowship, University of Wisconsin, 2014-2017.
National Science Foundation Grant (“Deterministic and Stochastic Equilibrium Selection in Evolutionary Game Theory”), 2012-2015.
Kellett Mid-Career Award, University of Wisconsin, 2010.
National Science Foundation Grant (“Evolutionary Game Theory and Applications”), 2009-2012.
Hamel Faculty Fellowship, University of Wisconsin, 2009-2010.
Romnes Faculty Fellowship, University of Wisconsin, 2006.
National Science Foundation Grant (“Rationality, Irrationality, and Transition Dynamics in Evolutionary Game Theory”), 2006-2009.
National Science Foundation CAREER Award (“Evolution in Games: Theory and Applications”), 2001-2006.
Graduate School Research Award, University of Wisconsin, 2001-2002 and 2006-2007.

Doctoral Teaching Award, Northwestern University, 1997-1998.
State Farm Companies Foundation Dissertation Fellowship, 1997-1998.
National Science Foundation Graduate Fellowship, 1993-1996.
AACSB/GMAC National Doctoral Fellowship in Business and Management, 1992-1993.

Research

Book

Population Games and Evolutionary Dynamics. MIT Press, 2010.

Software

Abed: Agent-Based Evolutionary Dynamics (with Luis Izquierdo and Segis Izquierdo).
[luis-r-izquierdo.github.io/abed-1pop](https://github.com/luis-r-izquierdo/abed-1pop) and [/abed-2pop](https://github.com/luis-r-izquierdo/abed-2pop).

Dynamo: Phase Diagrams for Evolutionary Game Dynamics (with Emin Dokumaci and Francisco Franchetti). www.ssc.wisc.edu/~whs/dynamo.

Articles in refereed journals

“Sample Path Large Deviations for Stochastic Evolutionary Game Dynamics” (with Mathias Staudigl). *Mathematics of Operations Research*, forthcoming.

“Learning in Games via Reinforcement and Regularization” (with Panayotis Mertikopoulos). *Mathematics of Operations Research* 41 (2016), 1297–1324.

“Large Deviations and Stochastic Stability in the Small Noise Double Limit” (with Mathias Staudigl). *Theoretical Economics* 11 (2016), 279–355.

“Sampling Best Response Dynamics and Deterministic Equilibrium Selection” (with Daisuke Oyama and Olivier Tercieux). *Theoretical Economics* 10 (2015), 243–281.

“Local Stability of Strict Equilibria under Evolutionary Game Dynamics.” *Journal of Dynamics and Games* 1 (2014), 485–495.

“Probabilistic Interpretations of Integrability for Game Dynamics.” *Dynamic Games and Applications* 4 (2014), 95–106.

“An Introduction to *Dynamo: Diagrams for Evolutionary Game Dynamics*” (with Francisco Franchetti). *Biological Theory* 8 (2013), 167–178.

“Stochastic Approximations with Constant Step Size and Differential Inclusions” (with Grégory Roth). *SIAM Journal on Control and Optimization* 51 (2013), 525–555.

“Stochastic Imitative Game Dynamics with Committed Agents.” *Journal of Economic Theory* 147 (2012), 2056–2071.

Articles in edited volumes

- “Population Games and Deterministic Evolutionary Dynamics.” In H. P. Young and S. Zamir, eds., *Handbook of Game Theory*, Vol. 4, 703–775. North Holland, 2015.
- “Stochastic Evolutionary Game Dynamics: Foundations, Deterministic Approximation, and Equilibrium Selection.” In K. Sigmund, ed., *Evolutionary Game Dynamics*, 111–141. American Mathematical Society, 2011.
- “Evolutionary Game Theory.” In R. A. Meyers, ed., *The Encyclopedia of Complexity and Systems Science*, 3176-3205. Springer, 2009. (Reprinted in R. A. Meyers, ed., *Computational Complexity: Theory, Techniques, and Applications*, 1000–1029. Springer, 2012.)
- “Deterministic Evolutionary Dynamics.” In S. N. Durlauf and L. E. Blume, eds., *The New Palgrave Dictionary of Economics*, 2nd edition, vol. 2, 457-461. Macmillan, 2008.
- “Learning and Evolution in Games: Overview”. In S. N. Durlauf and L. E. Blume, eds., *The New Palgrave Dictionary of Economics*, 2nd edition, vol. 5, 56-60. Macmillan, 2008.

Book reviews

- “*Strategic Learning and its Limits* by H. Peyton Young.” *Games and Economic Behavior* 63 (2008), 417-420.
- “*Evolutionary Dynamics and Extensive Form Games* by Ross Cressman.” *International Review of Economics and Finance* 15 (2006), 136-140.

Working papers

- “Best Experienced Payoff Dynamics and Cooperation in the Centipede Game” (with Segis Izquierdo and Luis Izquierdo).
- “Riemannian Game Dynamics” (with Panayotis Mertikopoulos).
- “Schelling Redux: An Evolutionary Dynamic Model of Segregation” (with Emin Dokumaci and Francisco Franchetti).

Work in progress

- “Convergence, Cycling, and Chaos under Evolutionary Game Dynamics: A Monte Carlo Experiment” (with Francisco Franchetti and J. Clinton Sprott).
- “Large Deviations and Stochastic Stability in the Large Population Limit” (with Mathias Staudigl).
- “Long-Run Behavior under Best Response Dynamics in the Centipede Game” (with Luis R. Izquierdo and Segis S. Izquierdo).
- “Hamilton-Jacobi Equations with State Constraints and Optimal Transition Paths for

Stochastic Stability” (with Hung Tran).
“Nested Replicator Dynamics and Nested Logit Choice” (with Panayotis Mertikopoulos).

Professional Activities

Short-term appointments

Visiting Professor, Stockholm School of Economics, various dates.
Visiting Professor, École Polytechnique, Spring 2013.
Visiting Scholar, University of Neuchâtel, various dates.
Visiting Scientist, Simons Institute, UC-Berkeley, October 2015.
Visiting Scholar, University of Paris VI, Spring 2013.
Visiting Scholar, University of Queensland, February 2013.
Visiting Scholar, Bielefeld University, May 2012.
Visiting Scholar, University of Chile, March 2012.
Visiting Scholar, Hitotsubashi University, December 2009.
Visiting Scholar, University of Avignon and INRIA, November 2007.
Visiting Scholar, University of Vienna, November 2006.
Visiting Scholar, University of Paris VI, November 2006.
Visiting Scholar, University of Southern California, March 2003.
Visiting Scholar, University of Tokyo, June 2002.

Panel memberships

National Science Foundation Panelist (ICES), 2012.
National Science Foundation Panelist (Economics), 2006-2008.
National Science Foundation Panelist (Human and Social Dynamics), 2004.

Editorial positions

Associate Editor, *Mathematics of Operations Research*, 2017 to present.
Associate Editor, *Journal of Dynamics and Games*, 2012 to present.
Associate Editor, *Dynamic Games and Applications*, 2010 to present.
Associate Editor, *Theoretical Economics*, 2010 to present.
Advisory Editor, *Games and Economic Behavior*, 2009 to present.
Associate Editor, *International Journal of Game Theory*, 2008 to present.
Associate Editor, *Journal of Economic Theory*, 2005 to present.
Associate Editor, *Journal of Economic Behavior and Organization*, 2004–2010.
Coeditor, special issues on Evolutionary Games, *Dynamic Games and Applications*, 2011–2012.

Positions in professional organizations

Council of the Game Theory Society, 2013 to present.

Conference program committees

Fifth World Congress of the Game Theory Society, 2016.
NBER/NSF/CEME Mathematical Economics Conference, 2014.
Twenty-fifth Stony Brook International Conference on Game Theory (co-chair), 2014.
Fourth World Congress of the Game Theory Society, 2012.
International Conference on Network Games, Control, and Optimization, 2011.
Midwest Economic Theory Meeting (chair), 2010.
Fourteenth International Symposium on Dynamic Games and Applications, 2010.
First Symposium on Algorithmic Game Theory, 2008.

Refereeing

Government agencies: Social Sciences and Humanities Research Council of Canada, National Fund for Scientific and Technological Development (Chile), Czech Science Foundation, European Research Council, Agence Nationale de la Recherche (France), Israel Science Foundation, Portuguese Foundation for Science and Technology, Economic and Social Research Council (UK), Army Research Office (USA), National Science Foundation (USA).

Journals: *ACM Transactions on Economics and Computation*, *AEJ Microeconomics*, *Algorithmica*, *American Economic Review*, *Annals of Applied Probability*, *Annals of Operations Research*, *Applied Mathematics Letters*, *B.E. Journals in Theoretical Economics*, *Central European Journal of Operations Research*, *Econometrica*, *Economic Theory*, *Entropy*, *European Economic Review*, *European Journal of Operations Research*, *Games, Games and Economic Behavior*, *IEEE Control Systems Magazine*, *IEEE Transactions on Automatic Control*, *International Economic Review*, *International Game Theory Review*, *International Journal of Game Theory*, *Journal of Economic Behavior and Organization*, *Journal of Economic Dynamics and Control*, *Journal of Economic Surveys*, *Journal of Economic Theory*, *Journal of Machine Learning Research*, *Journal of Mathematical Economics*, *Journal of Political Economy*, *Journal of Population Economics*, *Journal of Public Economics*, *Journal of the ACM*, *Journal of the European Economic Association*, *Journal of the Royal Society Interface*, *Mathematical Biosciences and Engineering*, *Mathematical Social Sciences*, *Mathematics of Operations Research*, *Nonlinearity*, *Proceedings of the National Academy of Sciences*, *RAND Journal of Economics*, *Rationality and Society*, *Review of Economic Dynamics*, *Review of Economic Studies*, *Research in Economics*, *Scandinavian Journal of Economics*, *Scientific Reports*, *SIAM Journal on Applied Dynamical Systems*, *SIAM Journal on Control and Optimization*, *Theoretical Economics*, *Theoretical Population Biology*, *Theory and Decision*, *Theory of Computing Systems*, *Transactions on Economics and Computation*, *Transportation Science B*.

Conferences: American Control Conference, IEEE Conference on Decision and Control, Theoretical Aspects of Reasoning about Knowledge.

Conference presentations and seminars

- 2017: Stony Brook Workshop on Adaptive Learning; Stony Brook International Game Theory Conference.
- 2016: UW-Madison (Mathematics).
- 2015: University of Maryland (Institute for Systems Research); UC-Berkeley (Simons Institute for Theoretical Computer Science) (x2); Washington University in St. Louis, Peyton Young Conference (Oxford); University College London; Oxford University.
- 2014: Banff Workshop on Decentralized Systems; University of Colorado; Bocconi University; INRIA (Grenoble); Stony Brook International Game Theory Conference; Conference on Mathematical Aspects of Game Theory and Applications (Roscoff, France); UW-Madison (Wisconsin Institute for Discovery).
- 2013: Hausdorff Institute Workshop on Evolutionary Dynamics and Market Behavior; UW-Madison (Wisconsin Institute for Discovery); École Polytechnique; Paris Game Theory Seminar; Australasian Economic Theory Workshop*.
- 2012: Fourth World Congress of the Game Theory Society (Istanbul)*, Econometric Society Summer Meeting (Evanston); Workshop on Game Dynamics, Hebrew University; Bielefeld University; Colegio Carlo Alberto; Indiana University; URBANICS II (Chillán, Chile)*.
- 2011: UW-Madison (Human, Animal, and Machine Learning); Ohio State University; Conference on Mathematical Aspects of Game Theory and Applications (Toulouse)*; Altenberg Workshop on Strategic Interaction in Humans and Other Animals; University of Montreal–GERAD Spring School on Evolutionary Games (x2); European University Institute; Royal Institute of Technology, Stockholm (x2); National University of Singapore Conference on Economics and Probability; American Mathematical Society Short Course on Evolutionary Game Dynamics (New Orleans) (x2).
- 2010: Cornell University, Second Brazilian Workshop of the Game Theory Society*; Stony Brook International Game Theory Conference*; International Symposium on Dynamic Games and Applications (Banff)*; Banff Workshop on Evolutionary Games; Cowles Foundation Summer Conference; Eleventh Workshop on Optimal Control, Dynamic Games, and Nonlinear Dynamics (Amsterdam)*; UW-Madison (Chemical and Biological Engineering); URBANICS (Marbella, Chile)*; Lund University Workshop on Distributed Decision-Making and Control; University of Kentucky.
- 2009: Hitotsubashi University, Kyoto University, University of Tokyo, Harvard University/MIT; University of Massachusetts; Concordia University;

- Transatlantic Theory Workshop (Evanston); Cornell CS/Econ Workshop; Army Research Office Workshop on Decision Sciences*; UW-Madison (Mathematics); Econometric Society Winter Meeting (San Francisco).
- 2008: Toulouse School of Economics; Paris Game Theory Seminar; CEPR-PSE Conference on Cultural Dynamics and Diversity; George Washington University SMCS Symposium; University of Texas; UCLA; MIT Workshop on Game Theory and Networked Control Systems; Third World Congress of the Game Theory Society (Evanston); UCSD; Caltech Workshop on Microeconomic Dynamics; Oxford University; Johns Hopkins University.
- 2007: IEEE Conference on Decision and Control (New Orleans); Brown University; University of Avignon; Caltech; UNC-Charlotte; UW-Madison (Complex Systems).
- 2006: University of Michigan; Institute for Advanced Study, Vienna; University of Vienna; University of Bonn; Paris Game Theory Seminar; Radcliffe Seminar on Dynamic Networks; Columbia University; University of Western Ontario; UC-Berkeley; Stony Brook International Game Theory Conference; Banff Workshop on Evolutionary Game Dynamics; Princeton University; Caltech Learning and Information Workshop; Econometric Society Winter Meeting (Boston).
- 2005: Pennsylvania State University; Concordia University; Ninth World Congress of the Econometric Society (London); Stockholm School of Economics; SIAM Conference on Optimization (Stockholm).
- 2004: Harvard Program for Evolutionary Dynamics; Yale University; Kyoto Game Theory Workshop.
- 2003: UW-Madison (Mathematics); Illinois Conference on Learning and Bounded Rationality; Virginia Tech; University of Chicago; Princeton University; Johns Hopkins University; Washington University in St. Louis; Econometric Society Summer Meeting (Evanston); University of Texas; UCLA; University of Southern California.
- 2002: University of Pennsylvania; Harvard University/MIT; Society for Economic Dynamics Summer Meeting (New York); University of Tokyo (x3); Royal Institute of Technology, Stockholm; Stockholm School of Economics; Case Western Reserve University Learning Conference; Cornell University; Econometric Society Winter Meeting (Atlanta).
- 2001: Stony Brook International Game Theory Conference; Valencia International Game Theory Conference; Midwest Economic Theory Meeting (Madison).
- 2000: Royal Institute of Technology, Stockholm; Stockholm School of Economics; Eighth World Congress of the Econometric Society (Seattle); First World Congress of the Game Theory Society (Bilbao); American Economic Association Annual Meeting (Boston).
- 1999: Northwestern University; Stony Brook International Game Theory Conference.

- 1998: University of Michigan; University of Wisconsin; Columbia University, California Institute of Technology; University of Chicago; Kennedy School of Government-Harvard University.
- 1997: University of Rochester; Washington University in St. Louis; Arne Ryde Symposium on Focal Points, Lund University; Stony Brook International Game Theory Conference.
- 1996: Summer in Tel-Aviv Economic Theory Conference.
(* denotes plenary, semi-plenary, or keynote lecture)

Advising and Teaching

Ph.D. students

Ratul Lahkar (2007), Emin Dokumaci (2007), Yasushi Asako (2009), Fernando Louge (2009), Wei Zhang (2009), Ignacio Monzón (2010), Katsuhiko Aiba (2011), Danqing Hu (2011), Dai Zusai (2011), Ryoji Sawa (2012), Jiabin Wu (2014), Man Wah Cheung (2015), George Loginov (current).

Graduate teaching

Game theory, microeconomic theory, dynamical systems, stochastic processes.

Undergraduate/MBA teaching

Game theory, probability and statistics.

Book

Vital Statistics: Probability and Statistics for Economics and Business (with Brett A. Saraniti). Preliminary edition, 2017. Oxford University Press.

Lecture notes

Lecture Notes on Game Theory and Information Economics.
